Mr Wooten,
Sir,

2010 AUG 30 PM 5:47
On 2004 October 27 you sentenced me to 108 months for possession of firearm. you said Sir that you as a Judge have never had a case such as mine - a signed confession that I did drugs but the test came back Negative so I lost my 3 points of Responsibility. I was sick and didn't have my pain pills with me and the probation officer told me Sir if I would sign a paper stating I had did drugs he would let me go home, so being sick I signed it. So I am asking mercy from you Sir to give me back these 3 points and reduce my time however much you would do for me Sir. I am at your great mercy Sir and in need of your favor in this matter. Do I need to get a lawyer or do you have the power to do this yourself. I am uneducated I don't know Sir, but if a lawyer is needed then I will get one at once.

Sir you said in court about some laws helping me some Blakely law or some other I can't really remember but now if you grant me this reduction I promise to go out to the world and help others not to make the same mistakes that I did. Check my prison records I am a model inmate to all others around me Sir, so please respond back, give me an answer Sir please.

Thank you Sir
for your valuable
time. Ricky Lambert
